

ALAA KARKOUTLI

Product Designer

Working in design related fields earlier in my life had a strong impact on me to have a closer look in the UX / UI field.

I am a passionate UI designer and determined to deliver a high end products & UI design by focusing on new modern solutions to be able to cope with the market changes and the targeted audience.

Professional Experiences

UX/UI Designer bootcamp Ironhack 2022

In this bootcamp I implemented different types of projects while focusing on the main fundamental topics of design. Design process, design thinking, user research create low, mid & high fidelity wireframes, create prototypes & responsive designs.

Using the methodology of design process we worked in different kind of project which were:

- Designing a new feature for Motuu travel App French company. Our task were to create [prepare your trip](#)
- Wellness Project Sleeping App “Sweet dreams”
- Redesign a [Chess Gaming App](#)
- Website redesign for [medical services company](#)
- The wicked problem of food sustainability
